***Election/Restrictions***

1. This is a supplemental action to canceled claims 1 and 4 listed in the substitute sheets of the documents submitted with 371 applications recorded on February 19, 2002.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 2-3 and 5-17 drawn to an invention of a data communication system and its method of transmitting data represented by a time interval interposed between specific sequences and generating the specific sequences.

Group II, claims 18-24 drawn to a bidirectional data communication system with optical fiber connections, comprising components for a full-duplex of arbitration communication and a half-duplex of data communication according to IEEE1394.

3. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

These two groups require different technical features, the first group requires the generating sequences of the data sequences and the specific sequences where the data sequence interposed between. However, the second group requires components

comprised in a system or device, and the relation of the components to decoding and encoding signals in a half-duplex or a full-duplex mode based on the arbitration signals or data signals.

An international and a national stage application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept ("requirement of unity of invention").

4. During a telephone conversation with Catherine M. Voisinet on October 27, 2005 a provisional election was made to prosecute the Group I, claims 2-3 and 5-17.

Affirmation of this election must be made by applicant in replying to this Office action.

Claims 18-24 are withdrawn from further consideration by the examiner, 37

CFR 1.142(b), as being drawn to a non-elected invention.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
